SHAMANIC INITIATION AND
MENTORING FOR YOUR GENIUS

The 2015 Shaman's Light Training Program

Shaman's Light™ is an authentic, in-depth shamanic initiation and mentoring program, based in the organizing principles of consciousness as they are held in the Andean Traditions. Upper levels of the training include teachings and rituals from other cultures [Himalayan, West African, Mayan, Yaqui, & Tuvan] as we embody the principles of conscious thriving that are indigenous to all humans.

Training sessions take place in Sebastopol CA, just north of San Francisco.

About the training process

The Shaman's Light Program has 4 levels of training, plus expert courses offered to participants in the program. Participants at all levels are invited to join our yearly Journey to Peru and other special excursions, as well as benefit from additional 1-on-1 mentoring time with Marti.

Acceptance into the training is based on your phone interview and your attendance at a Preview Day or other Introductory course. [See page 2]

Training groups average 8 students per group. Each training group proceeds as an ayllu [training group or community] through its levels of learning, initiation, and mentoring. Each training year is comprised of 3 to 5 multi-day sessions with exploratory work and teleconference sessions scheduled between meetings. A training level may be 1 to 3 years long and the levels are taken in sequence. From Level 2 upward most of the expert courses may be taken simultaneously with the core training courses.

Active participation in collective work is as important as solo work in mastering the challenges of these trainings. This is an opportunity for sustained, customized training and initiation; to reap the full benefits, you'll need a few things: commitment, discipline, heartfulness, the capacity to learn, and a good sense of humor!

Although these trainings are not a substitute for psychotherapy, they are a very powerful component in the personal development of trainees. Professional boundaries are always maintained and participants' personal information is kept confidential.

Note: All trainings payments begin with a nonrefundable deposit; balances are usually paid per session. Fees include training materials and gourmet lunches. Details are in the registration packet.

WORKING IN THE OTHER WORLD

empowering the shaman's tools*

This 7-session training in precision shamanic journeying will teach you the authentic technologies of shamanic journeying, 'soul retrieval' and soul calling, and how to use them intelligently in the modern world. To support these high-level shamanic skills, you'll be initiated into the art of calling in, creating, and attuning shamanic tools.

THE SHAMAN'S DREAM BODY

Human evolution, consciousness, and the magic art of dreaming

In this course we use a multi-fold lens to understand exactly how human consciousness is designed to steward the evolution of life and consciousness itself. This seminar is filled with stunning revelations about our natural gift that will give you extra-ordinary insight into our natural visionary capacities.

THE SHAMAN'S LIGHT™ JOURNEYS

All Shaman's Light participants are eligible for our unique shamanic study and initiation journeys to work with the same indigenous shamans who initiated Marti. The focus of the trips is hands-on, professional level shamanic training and initiation. The teachings revealed to students are far beyond what is available in ordinary Western settings. As of 2015 our trips are solely to Peru to work with the remaining carriers of the authentic lineages, and receive the profound transmissions and initiations that can only be delivered at that source. In future we hope to be able to re-instate some of our other itineraries, which have included Nepal and Tuva.

ADVANCED CRANIOSACRAL WORK AND SHAMANIC PROCESS

The best possible experiential skill development for shamanic work

This training is open to those who have had some previous training in craniosacral work. In this seminar we combine the techniques and wisdom of two expert realms – western medical knowledge and shamanic perception and connectivity – to give you a deep understanding of the human body/mind/spirit and a one-of-a-kind skill-set for practitioners of this sacred work. *This training is offered as qualified groups are formed.*

ADVANCED SPECIAL-TOPIC SEMINARS

Advanced seminars are offered each year for Shaman's Light participants. A special-topic seminar may be a weekend to continue working with transmissions we've received in Peru, a few days to explore a new topic or a new application of shamanic wisdom in the modern world, or an afternoon to perform healing rituals for individuals, communities, or the planet. These sessions are customized to meet initiates at their growing edge, so the specific content evolves each year.

A NOTE FROM MARTI ABOUT THE POWER OF ONE-ON-ONE MENTORING

One of the most unique aspects of Shaman's Light™ is that you get a real mentor. I am available to participants for one-on-one sessions to insure that each member of Shaman's Light is understanding the material and embodying the principles in ways that are practical, valuable, and meaningful for them. As we say at Shaman's Light, the good news about the small training groups is that you get a lot of personal attention – which is rare in trainings! – and the other news is that there's no place to hide. Becoming a modern shaman means stepping into your life and participating, in the full light of your passion and capacity for thriving.

I look forward to hearing from you so we can discuss what coming into the light as a modern shaman can mean for you.
